

World PEAS CSA

Farm Fresh Food for All

See What Our Shareholders Are Saying

“I would highly recommend World Peas. The produce is so fresh and it's so nice to know that it is grown in a way that is good for the earth, the farmer, and the customer.”

“[World] PEAS is a wonderful opportunity to help others help themselves, and even though we don't typically look for something in return, it was wonderful to receive a myriad of fresh and diverse fruits and vegetables each week, many of which we would never have selected on our own. World Peas opens your eyes to the variety the world has to offer. It was a great pleasure to be a CSA member. We look forward to next year.”

“I've benefited from the sliding scale option, which [h]as made the difference between being able to afford fresh, local, and healthy food or not. It's meant so much that we were able to afford the CSA.”

“My Tuesdays are much less exciting now that I actually have to think up my own recipes! World Peas gave so many fantastic recipe suggestions I felt like a farm-to-table chef every week.”

“The box was always ready on time and I was consistently impressed at the freshness of the produce, despite being in an area that was somewhat warm.”
