Creating Your Cabbige Account
Step 1: Navigate to Cabbige.com

Visit www.cabbige.com and in the top right corner, click “Subscribe”.
Step 2: Register

Enter your Farm Name, Name, Email and Password. Don’t forget to accept the terms and conditions, then click “Register”.

After registering, log in to your email and you will receive a notification asking you to confirm your account.
Step 3: Sign in

Click the link in your confirmation email to sign in to your account with your email and the password you created.
Step 4: Set up your Crops

Select Settings, and then click Crops.
Step 4: Set up your Crops

Click “Add Single Crop”
Step 4: Set up your Crops

Add the information about your crop such as the name and variety (if applicable). Once you are done, click “Create Variety”. If you have many crops to create, you can use the multiple crop upload spreadsheet by clicking Settings, Crops, Upload Multiple Crops.
Step 5: Set up your Channels

Select Settings and then Click Channels
Step 5: Set up your Channels

Select “New Channel” and select the type of channel you would like to create. Select Market/Farm stand if this is a direct market channel, Buyer if it is a wholesale channel or select CSA. Create all the channels you currently sell through.
Step 6: Complete your account information

Go to setting and click “Account”. Enter the state your farm is located in as well as your growing methods and click save.
Congratulations! You are all done setting up your account. If you have questions or need any assistance, please email us at support@cabbige.com or watch our training videos at http://www.cabbige.com/cabbige-video-tutorials/ for more information. Thanks!
